

Nexus Album is a wonderful album for a guest book! No longer are guest book something to be stored away! Once you have completed your engagement session with me, I will create a guest booklet for your wedding day. Your guests will sign this album while admiring your engagement photographs.

The Nexus album comfortably holds 50 sides. If your album requires more than 50 sides, I would recommend creating two (or more) spiral bound albums for the best presentation of your event. This album is also a wonderful gift for a Parent's or Grandparent's album.

Nexus albums can also be used for graduation gifts, small events, or even turning family photos into timeless albums. No more losing those photographs out of the 3-ring photo albums. Spiral bound albums are made to preserve those sentimental memories by printing the photograph directly on the page.
