

The Tuscany Album Collection

This album comes with your choice of non-leather, leather, smooth photo or canvas photo covers.

The Tuscany albums bear some of the best design features available including: damage-resistant rounded corners, the tightest gutter seam available, true flush mounted layouts.

You have several options with this album such as: panoramas that stretch across two pages as you open the album, tight rounded corners that protect from damage without sacrificing design space, spine hubs, a presentation case and box, optional square corners, various colors to choose from for your cover, a cameo cover in select sizes, and free shipping. Faster shipping will require an additional cost.

Please see the options for types of covers below. All Tuscany albums have a variety of templates. The price is based on how many pages an album requires, not the amount of photographs!
